Health Fashion

The way modern world is organised made health become trendy. Increased awareness contributed to changing human needs: people more and more often look for products that support caring about the health and keeping your body fit. DuoLife addresses those needs!

Be trendy - be healthy!

More and more people all over the world are aware of how important it is to care about your health. This is influenced by development of science and definitely easier access to information than in the past. Those factors cause that the new trend, i.e. health fashion, is becoming increasingly popular.

DuoLife greatly contributes to development of this trend, producing innovative and natural dietary supplements, cosmetics, healthy food and environmentally friendly cleaning products. Additionally, in cooperation with the World Healthy Living Foundation, DuoLife organises pro-health Social Campaign 'I live Consciously', and promotes 5S Strategy, which attracts more and more enthusiasts.

Natural supplementation

Health

Health, supported with the use of unique dietary supplements, is the first of DuoLife pillars. Their quality, effectiveness and manner of operation will not build your business, but they will become its foundation. Understanding the need of supplementation and the resulting strength will let you create high product culture.

Scan QR code for more information

The most important pillars in human life.

Health

Business

Development

Take care of what's the most important!

Nowadays, in the world full of challenges and tasks done in a constant rush, it is easy to forget about such an important thing as caring about your health. And it is health that is the highest value, which must be looked after every day, regardless of the circumstances.

DuoLife Company, producing exceptionally effective dietary supplements, addresses the needs of the contemporary world. People across the globe need top quality products, thanks to which they can take care of proper condition of their body. And everything they need, they find in DuoLife.

Scan QR code for more information

Business

Financial opportunities created thanks to the unique Compensation Plan is the second DuoLife pillar. The idea behind this system will let you quickly reach the conclusion that inviting people to DuoLife Club and its extension is the most profitable business practice.

The most important pillars in human life.

Health

Business

Development

Softmarketing[®],
i.e. safe business, innovation and passion.

Softmarketing[®], i.e. an innovative model on which the success and operation of DuoLife are based, is the revolution in business thinking. It is a response to the requirements of a dynamically changing market, which is the best alternative to other forms of business activity and full-time employment.

Functioning under softmarketing[®], DuoLife develops rapidly, being an attractive place to persons of different business environments and different financial status. Each of the persons, under the innovative business model, has a much better opportunity to achieve real success.

Scan QR code for more information

Development

Personal development is the third DuoLife pillar, which is supported by Personal Excellence Network platform. Common global development programs are dedicated to DuoLife Club Leaders and they accompany them at each stage of development of the conducted business. Therefore, Leaders can fully release their potential and the potential of Club Members from their structures. Due to systematic, planned development, Leaders become very effective in a relatively short time. The whole process takes place under a watchful eye of Experts responsible for PEN programs: Beata Kapcewicz and Joanna Gdaniec.

The most important pillars in human life.

Health

Business

Development

Change your life for the better!

Apart from huge business opportunities, DuoLife gives you the chance to increase your own competences and gain new skills. Focusing on personal development, the Company wants to educate and promote persons associated in DuoLife Club, and consequently to create perfect conditions for improving the quality of their lives.

DuoLife Club Members can take care of their personal development by participating in Leadership Development Seminars and Business Development Seminars. During those events, under a watchful eye of the best specialists, they learn about the secrets of being an effective Leader, but first and foremost, they constantly increase their knowledge and gain a new dose of necessary inspiration and motivation.

Co-founders and the Supervisory Board of DuoLife S.A.

DuoLife is made up of people to whom the Company is a true passion. They keep saying that if you do what you love, then you're actually never at work. The co-founders joined their passions and together they translated them into a business based on strong foundations, creating softmarketing® - an innovative business model, which puts individual human dreams, talents and abilities in the centre. This is why you can meet them so often among people - Club Members and employees, with whom they build together the future of DuoLife.

5 DuoLife production rules

DuoLife brand is distinctive through:

No preservatives

DuoLife products are not subject to high-temperature processing and they do not contain preservatives, thanks to which they retain their natural biological parameters.

GMO-free

In the production process, DuoLife uses only natural materials from certified plantations across the globe, categorically rejecting their modified species (GMO), and the use of pesticides or herbicides.

Glass containers

DuoLife products in a liquid form are stored only in glass packaging. Glass is the cleanest and environmentally friendly material, which does not enter into any chemical reactions with other products. DuoLife liquid dietary supplements are encapsulated only in dark-brown glass, which ensures their best protection.

IHHP™ Method

The method of preserving dietary supplements with IHHP™ technology is based on the concept of „minimal processing“. The applied technological process is based on the synergy of the performance of many fixative agents. It allows to maintain the highest quality of a product without the use of preservatives.

Complete ingredients

In the production process, DuoLife uses natural ingredients, retaining their biological background. This allows to obtain full bioavailability of active ingredients, which demonstrate the highest absorption.

Prizes and awards

An acknowledgement of the quality of DuoLife dietary supplements and an exceptional form of appraising the values of the Company are prestigious prizes and awards. DuoLife brand has been awarded many times for its contribution to development of economy, production of trustworthy preparations, which are manufactured according to the highest standards, and modern and competitive operations both on the Polish and foreign markets. All the prizes and awards confirm that DuoLife is a stable, reliable and pro-consumer Company where the key standards and values are followed.

DuoLife S.A. production plants

The composition of DuoLife products was developed by a team of experts, practitioners and professionals, among others in medicine, natural medicine, human nutrition and phytotherapy, as well as with participation of the Scientific Council. While maintaining the world's top quality standards and using innovative solutions, dietary supplements of unprecedented effectiveness were created.

Supplements plant in Kozy

DuoLife production plant in Kozy near Bielsko-Biala, with the floor space of 5500 m² is a project fully conforming to the quality standards and requirements of the European Union. DuoLife dietary supplements are produced there, and the whole process takes place under careful control of recognised and experienced experts.

Apart from production functions, the plant in Kozy is also our logistics centre combined with the warehouse and logistics backup facilities. Dietary supplements created in DuoLife production plant demonstrate top quality, confirmed by many tests, which are conducted only in accredited laboratories and under supervision of the Chief Sanitary Inspectorate.

Cosmetics plant in Łódź

The plant in Łódź is a modern production plant, where under the eye of experts and Members of the Scientific Council, DuoLife cosmetics are manufactured. It has its own laboratories which allow to conduct specialist tests and create unique compositions, meeting the strictest UE norms and standards. In production of cosmetics DuoLife uses the latest technologies and solutions, thanks to which the products created in the Łódź plant demonstrate the highest quality.

Pro-consumer system

The level of prices for DuoLife products depends on whether the buyer is a DuoLife Club Member, or not. Prices vary depending on the status of a specific customer. On the right hand side, we present a list of statuses with the prices assigned to them.

Register for the DuoLife Club:

Guest

A person who was presented with the rules of membership in DuoLife Club, but has not undergone the registration process.

In such a case, retail prices are applicable.

Preferred Customer

A person who, by registering in the DuoLife Club, has placed an order for less than a point value defined in the Compensation Plan as a level of consumer activity, thus obtaining the opportunity to purchase DuoLife Products at preferential prices.

In such a case, prices being the average between the retail and Club Member price are applicable.

DuoLife Club Member (Club Member)

An adult natural person with full legal capacity or a business entity that is not a natural person who has registered with the DuoLife Club.

In such a case, Club prices are applicable.

Dietary supplements

An appropriate dose of micro-ingredients is necessary for correct functioning of each cell of the body. Properly selected supplementation helps to achieve the expected result, as it supports the body at all levels. DuoLife dietary supplements, i.e. concentrated doses of nutritional substances (such as vitamins, minerals, aminoacids or beneficial plant extracts), is the response to the body's needs, being a perfect supplementation of daily diet. Taking care of your health and body is much easier with them!

Scan QR code for more information

Why supplements?

DuoLife dietary supplements are preparations of the highest quality, composed of natural ingredients, with utmost care about details. They meet even the most restrictive standards and requirements, which is confirmed by numerous certificates. Every day, thousands of people all over the world are changing their lives thanks to unique DuoLife products!

Dietary supplements Liquid forms

DuoLife Liquid Formula is a combination of nature and the latest scientific discoveries. 100% natural liquid dietary supplements encapsulated in a unique glass bottle are a guarantee of the highest quality and digestibility. Each product from that line is composed on the basis of the best, appropriately selected ingredients, based on the rules of synergy and antagonism. DuoLife Liquid Formula preparations are a response to all the needs of the body.

Why supplements in a liquid form?

DuoLife Liquid Formula line joins modernity with the pro-health properties. Preparations in a liquid form are fixed using the IHHP™ method, based on the concept of minimum processing, allowing to maintain purity and top quality of ingredients. It is a necessary support for the health, which is reflected in a strong and properly nutritioned body.

Dietary supplements Medical Formula

DuoLife Medical Formula products are composed to support the body in a natural and fully safe manner. Drawing the best from the nature, DuoLife created dietary supplements with increased concentration and digestibility of active substances and delayed time of their release. Medical Formula line products contain chlorophyllin and inulin, they are free from bisphenol A (BPA), and their power is encapsulated in HPMC capsules - perfect for vegans and vegetarians.

Why supplements in the form of capsules?

Medical Formula line stands for carefully developed dietary supplements which strengthen the body and support its correct function. Natural strength enclosed in the capsules is reflected in effectiveness confirmed by tests. Personalised packaging and multi-lingual label make DuoLife Medical Formula products perfect for you.

SHAPE CODE® App

The SHAPE CODE® App is a free sports app to help you live a healthy lifestyle and support you in establishing healthy habits. In the app, you will find over 20 training plans adapted to your activity level. SHAPE CODE® App is an innovative tool which in a simple and intuitive way allows you to monitor your progress, share the results with friends and implement ambitious training plans. Lack of motivation? Download SHAPE CODE® App and start your adventure!

Meet the SHAPE CODE® App!

Maintaining regularity - with our app you will not miss any workout or healthy meal. You will remember about all the useful activities that over time will turn into habits and positively impact your health.

Nutrition dashboard - in the product database each user can find the best ingredients for themselves and calculate the calorie count of their meals. If any product is missing in the database, it can be entered manually at any time. The most frequently used products are displayed in the form of suggested products, in order from the most to the least frequently chosen.

Caring for the user - thanks to the notification system you will not forget about anything! The app will remind you to add meals, drink water or exercise. It will also help you determine your hydration level and monitor your progress with a feature that allows you to enter your current weight and other measurements. To do this, simply click the „+“ in the main panel and then select the „Entry“ option. Plus, you can share your progress with friends - SHAPE CODE® App allows you to share your own material on social media.

Clarity, intuitiveness, simplicity - SHAPE CODE® App is a very simple and intuitive tool that will determine the best workout for you and help you calculate the ideal number of calories to consume per day. Just enter your basic information on registration: age, gender, weight, height and workout level and the virtual trainer will automatically tailor the best workout program.

Your own activities - our app has an option to add forms of activity preferred by the user. Weather is good and you feel like running or walking? Or maybe you prefer swimming pool or horse riding? You can record each activity in SHAPE CODE® App by entering it manually. The results and the number of calories burned will be posted in your workout dashboard.

Additional notifications - it is worth to follow them closely. With the help of the educational notifications will learn a lot of important and interesting things about health, responsible lifestyle and proper nutrition.

Cosmetics

LAZIZAL®

Beauty has many dimensions and one of them is your very self. LAZIZAL® is a brand that cares about you, your skin and your beauty.

The word LAZIZAL® is a palindrome - an expression that is read from left to right as well as right to left. In ancient times, palindromes were attributed a magical meaning. They were believed to express what cannot be expressed directly.

Why LAZIZAL®?

LAZIZAL® is a unique combination of three products (cream, serum and dietary supplement) that provides comprehensive anti-aging care.

Listening carefully to each of our needs, we invite you to the world of slow beauty: unhurried, intuitive care for your own skin. Beauty in the slow style is a return to natural cosmetics, universal beauty and timeless, multidimensional natural care.

Give your skin care that will make you feel special regardless of age.

Effect confirmed by research.

Proven effectiveness.

High content of mineral ingredients.

High efficiency.

Complete anti-ageing care.

Proprietary Supreme LiftAge concept.

Cosmetics

Beauty Care

The latest scientific reports confirm the relation between health, feeling good and the skin - the biggest organ of our body. Only a comprehensive approach to the issue of caring about the health and body is a guarantee of its appropriate function. This holistic perspective triggered a search made by DuoLife. The result is DuoLife Beauty Care line - a perfect supplementation with DuoLife products, based on formula 24/7 Nutri-Form™.

Why Beauty Care?

Products of the DuoLife Beauty Care line are matched with products of the Liquid Formula line, which are additionally enriched with reserved active formulas. This in turn allowed to maximize the effect of the cosmetics that perfectly affect the overall well-being and condition of the skin, emphasizing every aspect of beauty.

-  Up to 98% of the substance of natural origin
-  2 Step Diamond Effect - 24-hour protection adjusted to the biological clock*
-  Safety – effective action without the risk of damaging the tooth enamel thanks to patented ingredients (hydroxyapatite, perlite).

Cosmetics - how to use:

Beauty Care Aloes

Shower gel

Pour a small amount of gel on your hand or a sponge, wipe the skin gently and then rinse it.

Beauty Care Aloes

Hand soap

Apply a small amount of soap on damp hands, spread and rinse with water. Suitable for everyday use. It leaves a pleasant scent on the skin.

Beauty Care Aloes

Shampoo

Apply a small amount of shampoo to wet hair, massage it into the scalp, and then rinse. Repeat if necessary. The product is suitable for everyday use.

Beauty Care Vita C

Hand cream

Massage a small amount of the cream in the skin of your hands.

Beauty Care Day & Night

Toothpastes Set

To achieve best effects, brush your teeth with a small amount of toothpaste (pea-size) daily right after waking up (Day toothpaste) and right before sleep (Night toothpaste).

KHC Advanced Formula Shampoo

Hair shampoo

Apply a small amount of shampoo to wet hair, spread over the entire length of the hair and massage into the scalp, then rinse with warm water.

KHC Advanced Formula Conditioner

Hair Conditioner

Apply a walnut size portion to damp hair for 1-2 minutes, then rinse thoroughly with water.

Beauty Care Collagen

Body butter

Apply a small amount of the body butter directly to the skin. Rub gently until it is completely absorbed.

Body Care Herbal

Antibacterial gel for hand skin care

Apply a thin layer to the skin of your hands and spread thoroughly. Wait until the product is completely absorbed. Do not wash off.

Beauty Care Chlorofil

Sugar body scrub

Apply the peeling to the dry (recommended) or damp skin. Make a circular massage and rinse thoroughly. Wash the residues if necessary. Use once or twice a week.

Beauty Care Aloes

Day cream

Apply on cleansed skin of the face, neck and lower neck, omitting the area of the eyes. Ideal under make-up. Use in the morning.

Beauty Care Aloes

Night cream

Apply on cleansed skin of the face, neck and lower neck, omitting the area of the eyes. Use in the evening.

Beauty Care Aloes

Micellar fluid

Apply the fluid on a cosmetic pad and gently rub the skin of the face, neck and lips. To remove makeup from the eye, hold a soaked pad on a closed eyelid and rub it towards the eyelashes.

Functional food

How to prepare for daily challenges? By reaching for healthy and functional food, which will supply you with the necessary dose of energy. Tasty and healthy Hi5! products are the best choice for breakfast and a snack during the day - perfect for 7 days a week. With Hi5! your challenges are simpler and objectives achievable. 100% natural food without added sugar enriched with Polish honey and full grain - it is a guarantee of health and full effectiveness of the body.

Why Hi5! food?

Hi5! products are good straight from the nature, based on a simple, high-quality composition. Thanks to functionality of their ingredients, they are classified as 'Superfoods', therefore they perfectly fit the current trends in nutrition. Apart from pro-health properties, they are also distinguished by practical, environmentally-friendly packaging.

Virtual Presenter

The Virtual Presenter is a system that is a business breakthrough in developing activities within the DuoLife Club. This is an absolute novelty providing great profits that will result in measurable effects, not only in business, but also personal development and health.

Scan QR code for more information

How does it work?

This is one of few systems in the world that does over 80% of work for the user.

The system guides you from the very beginning and shows you step by step what you need to do to achieve your goals, regardless of your place in your career structure.

The system will help you manage time - it has a built-in panel of activities that you plan as part of the calendar, and you will receive a system reminder about them in due time.

Virtual Presenter is also fitted with a tool for effective team management, which can be used with a computer, tablet or smartphone. The tool provides insight into the activities of people in your structure and verification of the steps they have taken within the system! This will optimize the time and activities you need to perform to support your team.

Virtual Presenter provides precise information on how to use the DuoLife account. The system also explains how to register a new Candidate, how to withdraw money etc.

It also has a recruitment and verification option, which allows encouraging people to join your business by sending a referral link. All you have to do is send a message with a ready invitation to a potential Candidate!

Education in the system is really simple and pleasant. You do not need to analyze hundreds of pages of text. Acquiring knowledge mainly involves watching video material.

LDS

Leadership Development Seminars

Leadership Development Seminars is the new quality! This unique program has been created thinking about those who want to consciously improve their qualifications and aim for a specific objective. LDS is an event prepared for almost 14 weeks, based on the experience and knowledge of an amazing team of experts. Three-day seminars held every quarter are among the most important items in the timetable of each true Leader and persons for whom constant development is one of the most important values.

During LDS events, you will:

- ▶ gain knowledge and tools from practitioners;
- ▶ learn to communicate better with people close to you;
- ▶ learn to build long-lasting, strong relations;
- ▶ know your strengths and weaknesses;
- ▶ learn to use your strengths in the best possible way;
- ▶ build your self-confidence;
- ▶ learn to manage your emotions.

**Each LDS is thematic, and you can gain the above knowledge throughout the whole series of trainings.*

See the report:

BDS

Business Development Seminars

Business Development Seminars are monthly meetings held across Poland, which regularly gather several hundred people who decide to consciously start their path leading to a real success right now. BDS is an all-day seminar that allows meeting experts in health, personal development and business.

During BDS events:

- ▶ you will learn about modern business trends;
- ▶ you will learn about a ready business plan;
- ▶ you will learn about passive income;
- ▶ we will show you how to apply a time leverage in your life;
- ▶ you will learn how to work less and earn more.

**Each BDS is thematic, and you can gain the above knowledge throughout the whole series of trainings.*

DUOLIFE YACHT
LUXURY CATAMARAN

DuoLife Yacht

DuoLife Yacht is one of the most luxurious, 19-metre sailing catamarans in their class (62 feet).

The yacht is dedicated for 10 guests and 3-person crew who will take care about their comfort during weekly cruises around the most beautiful regions of the Carribbean and Greece. An exception is one-day cruises for even 30 guests.

The design of DuoLife Yacht has been enriched with Essense version, thanks to which it gained black framing of windows, mast, boom and the roof of the second deck. A gentle grey colour of the sideboards emphasises impressive easthetics of the catamaran, which distinguishes it from less luxurious vessels.

WHLF Foundation

The Foundation was established in 2015 at the initiative of Bartosz Królikowski, Piotr Pacyga, Norbert Janeczek and Łukasz Godyń. The idea that the Founders had was to create an organisation which actively supports actions aiming to improve the society's health, promote active lifestyle and change the surrounding reality to the one that is favourable to people who care about their dreams and health.

European Social Campaign 'I Live Consciously'

European Social Campaign 'I Live Consciously' is a movement followed by World Healthy Living Foundation with active participation of specialists from different fields. The objective of the Campaign is to share knowledge, social education, promote conscious lifestyle and seeking optimum solutions which are in harmony with nature, through a holistic approach to human life.

5S strategy

5S Strategy stands for care about general condition of the body through pursuing 5 basic elements of our life. These elements are: Conscious nutrition, Physical fitness, Supplementation, Effective detoxification of the body and Stress Management, i.e. working with your mind.

Healthy Day

Healthy Day is a series of unique events organised by World Healthy Living Foundation. The events gather enthusiasts of healthy lifestyle and promote caring about the health, appropriate nutrition as well as keeping fit, in a responsible way and supported by experts of the Social Campaign 'I Live Consciously'.

Healthy Life Clubs

World Healthy Living Foundation is a patron of the social initiative '**Healthy Life Clubs**'. Under the initiative, local communities across Poland organise meetings in the form of lectures and practical classes which are dedicated to responsible lifestyle.
